CTO Panel:

How Technology is Shaping the Future of Banking

\$25-35

by RMA Puget Sound Chapter

Tuesday, February 2nd, 2021 | 12:00 - 1:30 PM PDT | on Zoom

You're invited to join RMA Puget Sound on February 2nd for our next virtual event, CTO Panel: How Technology is Shaping the Future of Banking. Our panel of Chief Technology Officers will be discussing the ever-evolving role technology has, and will have, in the banking industry. We hope to see you there!

Our Panelists:

Jayson Callies
Seattle Bank

Jayson Callies is Executive Vice President and Chief Technology Officer at Seattle Bank. Jayson joined the Bank in 2016 and is responsible for managing the Bank's IT infrastructure and the evaluation and implementation of new client-facing technologies.

Jayson has over 16 years of bank technology experience, with extensive expertise in network infrastructure, core banking systems, and communications technology. He began his banking technology career with Whidbey Island Bank, working there for over 9 years. Jayson most recently was employed with Northwest Bank, where he held the position of Senior Vice President and Chief Technology Officer.

Dustin Hubbard
WaFd Bank

Dustin Hubbard joined WaFd Bank in 2019 as part of the company's strategy to transform into a digital-first bank. At the same time the bank created Pike Street Labs, a subsidiary company that Dustin runs. Pike Street Labs mission is to provide product innovations that will enable financial management to be simple, automated and intelligent for our retail and commercial clients.

Dustin has spent his career in innovating, designing and building technology platforms. He worked for Microsoft from 1993 – 2011 where he spent most of his time running software development teams across Windows, Office and Xbox. In 2013 Dustin helped start a company called AssureStart, which was a 100% online small business insurance company. In 2015 the company was purchased by American Family Insurance and rolled into their subsidiary company Homesite.

Chad Gregg
Kitsap Bank

Chad Gregg's professional banking career started 32 years ago at Puget Sound National Bank as a junior programmer. When PSNB was acquired by Key Bank, he transitioned to a Technical Specialist providing IT support for Key Bank of WA. In 2006, Chad was hired by Kitsap Bank for the IT Manager position and was promoted in 2008 as the VP-Chief Technology Officer.

Chad graduated from WBA's Executive Development Program in 2019 - a comprehensive twelve-month course designed to cultivate the next generation of banking leaders. He holds an MBA with a concentration in Technology Innovation Management from Pacific Luthern University. Chad is also a member of KITNet, a Kitsap County non-profit committee that provides an active forum for public/private entities to share information and communication technologies.
